

Speaker plan (index)

Two-person presentation. Full **English** speaker notes with beginner-friendly explanations are in separate files.

Speaker	Slides	File	Target time
Miłosz	1–12	speaker-notes-milosz.md (PDF)	7–8 min
Damian	13–21	speaker-notes-damian.md (PDF)	5–7 min

Deck source: main.tex

Handover (Miłosz to Damian, after slide 12)

That closes the **movie-search** workload. Damian will walk through **file-tools**, then recommendations, demo, and final conclusions.

Shared demo rule

Do not run the full benchmark live. Show health, one search, one enhanced search, /suggest, one file-tools JSON route, one image route, then saved plots/CSVs.

Backup line: “The full benchmark has already been run; the live demo proves functionality and parity, while the report and plots show the measured results.”

Rehearsal

- **Miłosz:** finish slide 12 + handover before 8:00; shorten slides 3 and 9 if needed.
- **Damian:** emphasize slides 15–16 contrast (light JSON vs image-heavy).
